

Stardust

~~~~~

~verse I~

Close your eyes  
Time to rest your head

~bridge I~

Gazing through a veil of tears, at all that we've become  
And all the dreams we ever shared, beneath a setting sun

So come, take my hand....

~chorus I~

Dancing in twilight the spirit lives on  
Cherish the memories, I'll keep them sacred when you're gone....

~verse II~

If... if you leave now  
You know I'll be right here...

~bridge II~

It hurts so much to let you go, but deep inside my heart  
I carry all the times we shared, we'll never be apart...

So hold... hold my hand....

~chorus II~

Dancing in twilight the spirit lives on  
Cherish the memories, I'll keep them sacred now you're gone....

And when it's all over, and nothing remains  
We'll be together, lighting up the stars again

Goodbye...

Goodbye....

Goodbye.....
